COMPANY INTRODUCTION

Introducing Ihsan Al-Arabia General Contracting EST, a leading provider in Contracting, Trading & Industrial Services with multiple government licenses. Based in Saudi Arabia's Eastern Region, including Jubail and Dammam, we specialize in Electrical & Mechanical materials and offer comprehensive solutions in Engineering, Industrial Services, and more

Proactive Engineering

Our team consists of professional engineers who offer lots of expertise in MEP works

Training

Ambitious and always striving to learn and develop from its abilities

Equality

Seeking leadership and brilliance supported a policy of motivation to lift performance and efficiency sustainably

Work ethic

Working within a dynamic organizational atmosphere supported collaborative efforts to boost productivity

Working Environment

The great ability of your time management and also the ability to work under pressure

Teamwork

We have strong communication skills, a courteous approach

Qualification

Quality and a spotlight on details are in our DNA

MISSION

Dedicating our knowledge, expertise, and quality to become the vendors' and customers' Saudi Partner of choice and to successfully deliver turnkey MEP Engineering, procurement, and construction solution.

VISION

To be one of the top-most leading Companies renowned for Excellence, Quality, Performance, and Reliability within the Saudi Contracting and Services Business market.

Delivering Quality

We are continually striving toward excellence. It is essential to provide high-quality services.

Anticipate Solutions

Applying innovative production methods to deliver projects with very cheap facility costs.

To Detail

Passionate about what we do up to the littlest details because of our know-how through the years.

Integrity

We believe in ourselves and can be trusted. Our business interactions are guided by the idea of integrity. It is an unwavering dedication to clients' trust and confidentiality.

Sustainability

We value environmental and community sustainability. Our company is environmentally conscious. Our company is environmentally conscious. One of our many environmentally responsible techniques is to conserve important resources. Maintaining sustainable operations is also part of our plan to serve our society for many years.

Trust

Integrity across all areas of the business to our clients, plus a radical follow-up of every project before and after delivery.

Innovation

Promoting employees to provide all types of services and products is the foremost innovative way.

Quality services and
Products Control

Long-term satisfaction
relationship with all of
our customers

Delivery on time
and in a very cost-
efficient manner

Operating energy efficiency
and productivity of the
property

SERVICES POLICY

Our customers have defined service excellence for us. We are committed to remaining on the leading edge of technology, offering the newest products and services available, so we can effectively meet the complex and expanding needs of our customers. From small construction to sophisticated industrial projects, you can depend on IGC CONTRACTING for Services with Required materials & resources.

QUALITY POLICY

IGC CONTRACTING is committed to meet or exceed customer expectation in quality, delivery and cost. As the level of their expectation increases every year, continuous quality improvement is critical to our success in the competitive marketplace. Continuous quality improvement is a systematic, organization-wide approach for continually improving all processes that deliver quality products on time.

Through the involvement of our employees, their enthusiasm for quality awareness, and new equipment, our average outgoing quality (AOQ) for visual inspection has improved dramatically. We therefore invite you to consider

By adopting this philosophy, the clients of IGC CONTRACTING will be assured of an excellent Standard of completed projects and services in accordance with specifications and contracts. Management has the ultimate responsibility to maintain the quality policy and shall promote all initiatives to attain and improve quality.

Develop and maintain processes for high-quality, cost-effective project management.

Continually enhance the Integrated Quality Management System.

Foster strong client relationships through effective communication and feedback.

Document and measure quality objectives through internal audits and management reviews.

Deliver construction services aligned with client specifications.

Encourage continuous improvement in company products and services by every employee.

HSE POLICY

compliance that all stakeholders ensure with all relevant statutory and other safety provisions

provide adequate resources to fully implement our Safety Policy.

promote safety awareness through campaigns and training programs among employees, business associates, and clients

IGC CONTRACTING is widely respected for its rigorous safety standards in both design and construction. Safety is our top priority, guided by client expectations and international standards to ensure projects adhere to the highest safety practices.

Our Health and Safety Policy complies with current international legislation, emphasizing employee cooperation in accident prevention. Management actively encourages participation at all levels to promote safe practices and proper equipment use.

Accurate records of accidents and injuries are maintained uniformly across IGC CONTRACTING, enabling us to monitor performance, maintain control, and assess potential hazards effectively.

Management at every level develops annual operating plans that prioritize health and safety, aligning with our commitment to continuous improvement and achieving measurable progress throughout our operations.

Comprehensive training programs are implemented to equip our workforce with the knowledge and skills necessary for safe working methods and statutory compliance, safeguarding our employees,

CAPABILITIES

ICC CONTRACTING IS FULLY CAPABLE TO PERFORM FOLLOWING:

CIVIL & BUILDING CONSTRUCTION

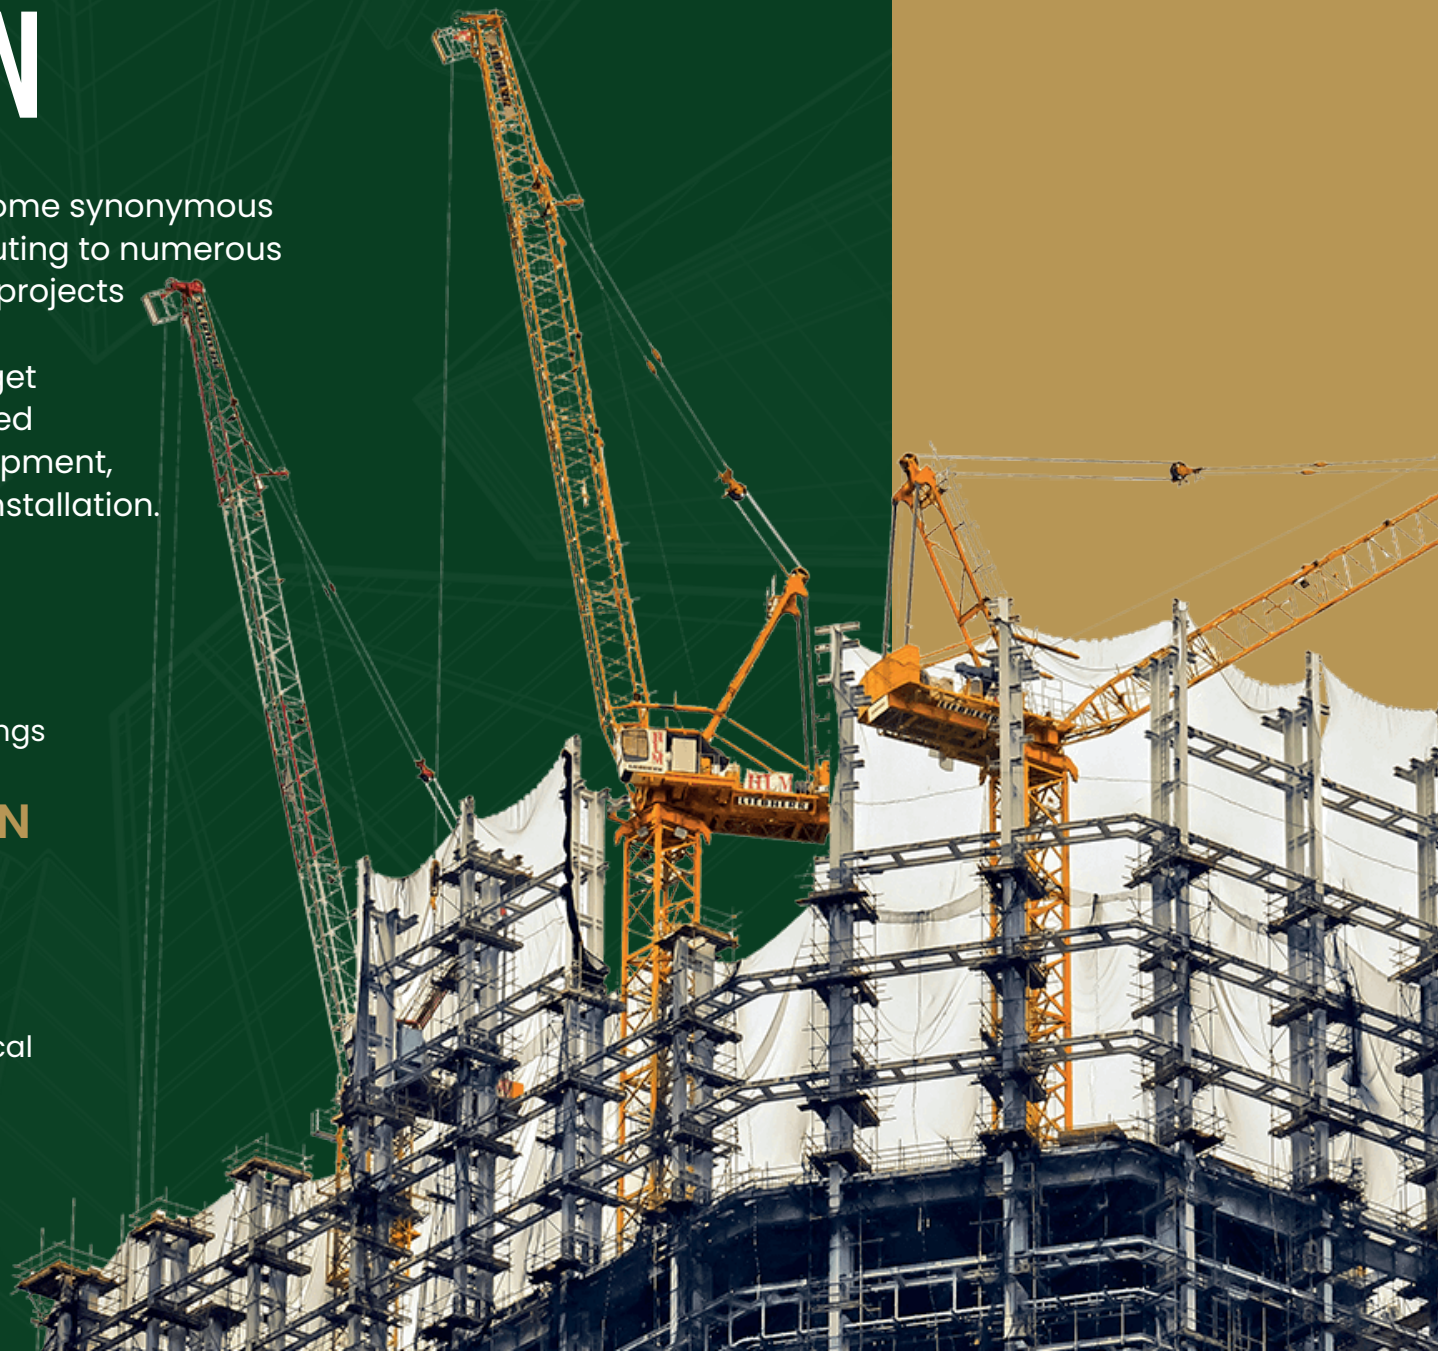

In a short time, IGC CONTRACTING has become synonymous with quality and client satisfaction, contributing to numerous significant construction and improvement projects across the Kingdom. Our flexibility, quality, specialized skills, and commitment to budget adherence have positioned us as a preferred single-source contractor for project development, management, construction services, and installation.

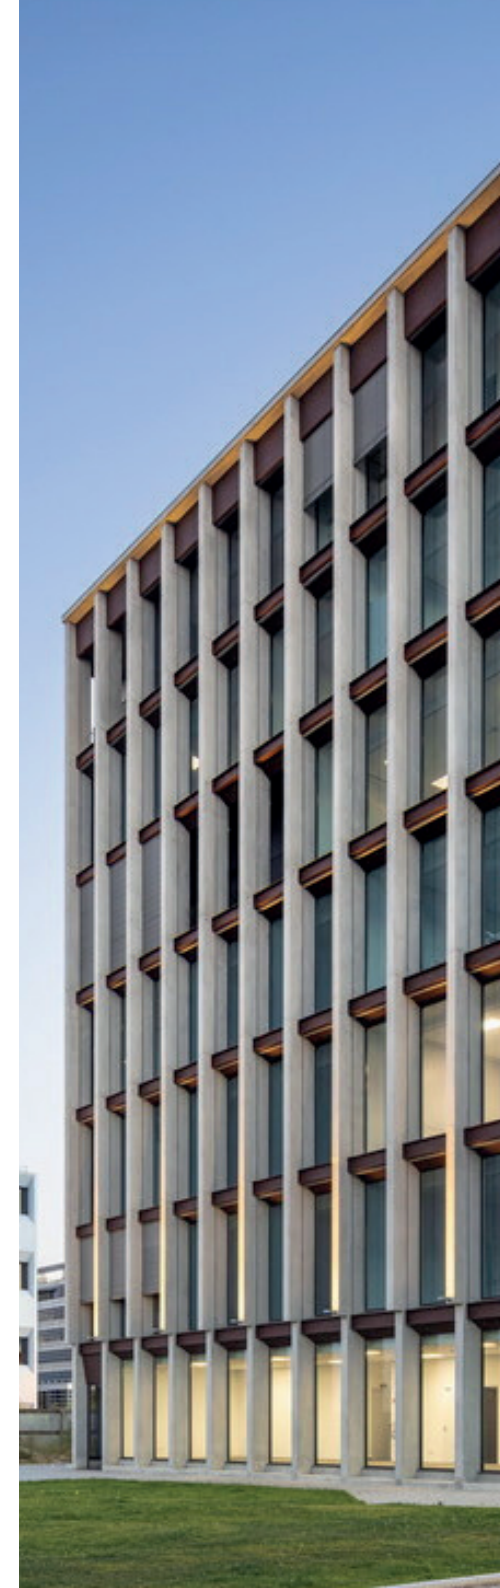

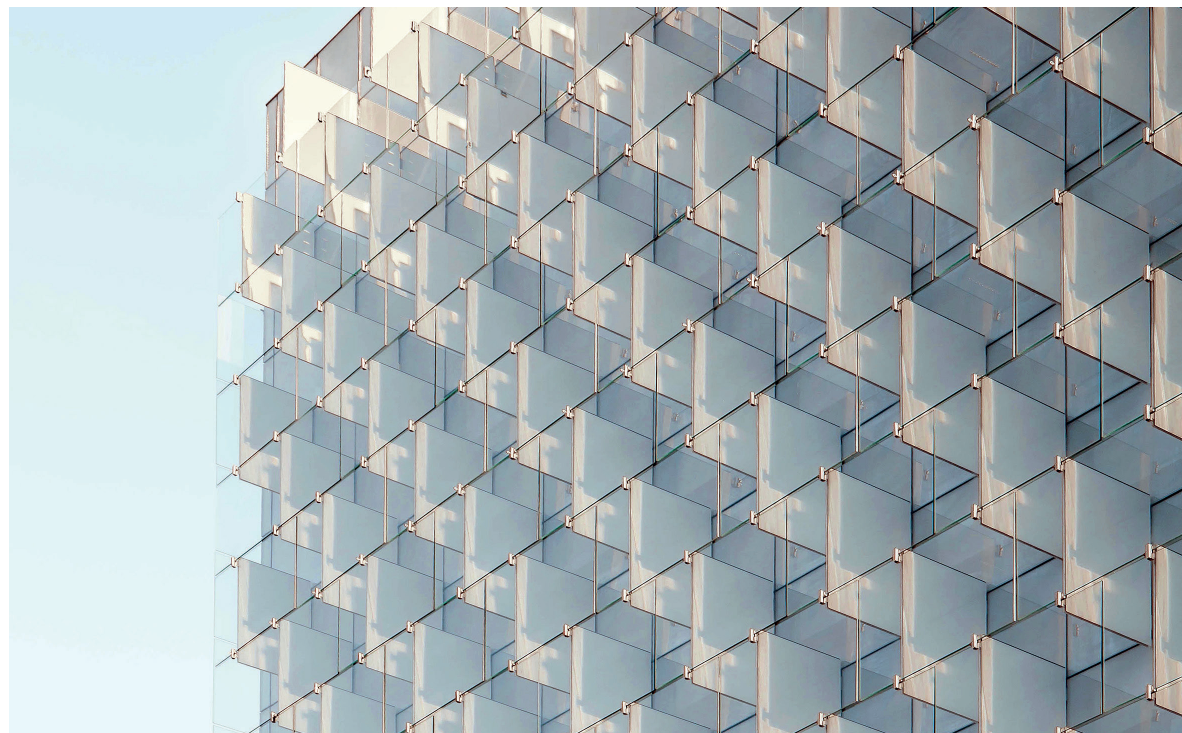

1. CIVIL CONSTRUCTION

- 1.1 Earthwork, Roads, Sidewalks, Curbs & Gutters
- 1.2 Industrial and Commercial Buildings
- 1.3 Design, detailing and erection of steel buildings

2. INDUSTRIAL CONSTRUCTION

- 2.1 Complete Procurement, Construction & Installation of Pre-Engineered Building.
- 2.2 Gypsum Board & Plaster of Paris Works
- 2.3 Fabrication, Installation and Erection Electrical Structure, Conduits & Cables
- 2.4 Fabrication, Installation and Erection of Steel Structure, GSM Towers
- 2.5 Fabrication, Installation and Erection of Perimeter Security Fence & Security Walls

A close-up photograph of industrial machinery, showing a large metal valve with a handwheel and various pipes and fittings, set against a dark background.

INDUSTRIAL SERVICES

IGC CONTRACTING feels proud by introducing Supply, Installation and Maintenance services for our industrial and petrochemical clients as follows.

- Electrostatic Pump (ESP)
- Corrosion Monitoring System (CMS).
- Multi-Phase Flow Meters (MPFM) and Ultrasonic Flow Meters (UFM)
- UPS (uninterrupted power supply)
- Permanent Down Hole Monitoring system (PDHMS).
- Fire and Gas Detection and Alarm Systems.
- Emergency Shutdown (ESD) system.
- Temperature and pressure gauges, sensors, transmitters, meters, etc.
- PLC, RTU, SCADA, etc.

Cathodic protection Works

Sacrificial anodes and Impressed Current Cathodic Protection system for buried pipelines, concrete

INSTALLATION & MAINTENANCE OF HVAC SYSTEMS

IGC CONTRACTING is specialized in Installation & Maintenance of HVAC Systems. Our experienced & qualified Team handles all tasks efficiently & on emergency basis.

A close-up, low-angle shot of a white CCTV camera mounted on a wall. The camera has a black lens and a black housing. The background is a blurred blue sky with some white clouds. The camera is positioned in the upper left corner of the frame.

TELECOM, CCTV & SECURITY

Design, Supply, installation & Commissioning of Electrical distribution, wiring and internal and external lighting.

- Fire Alarm and Gas detection systems. . Grounding and Lightning Protection.
- Communication systems including telephone, data/internet and security systems.
- Access Control System.

FABRICATION SERVICES

4.1 Fabrication of Structural Steel Building components like platforms, handrails, ladders / staircases, hangers, & sheds etc.

4.2 Fabrication of carbon /stainless steel vents & vents stacks, piping including pipe supports saddles and other mechanical equipment & components for all kind of industrial projects like tanks/vessels, pumps, boilers & sir producing equipment.

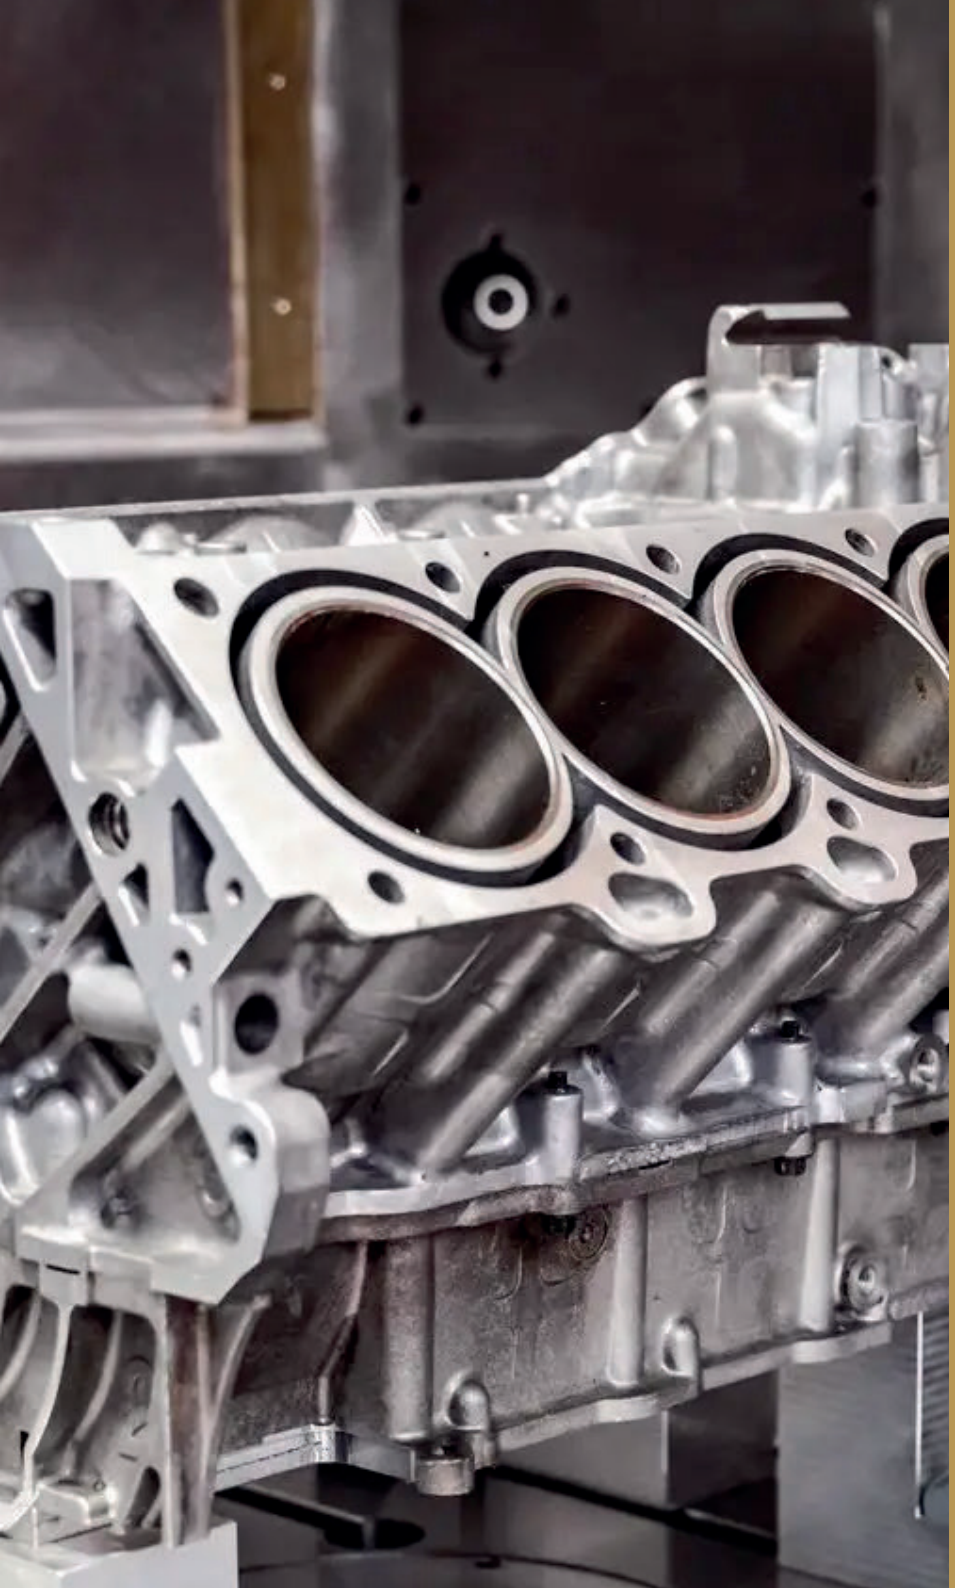

4.3 Industrial maintenance including light and heavy equipment.

MACHINING SERVICES

IGC CONTRACTING has a vast range of machining with continuous production capability as well as repair and maintenance facilities. An extensive range of plant, tools, machinery, skills and experience enables the Machine Shop to quickly and accurately produce components and equipment to exacting standards. A rigorous in-house quality control program ensures that each job is inspected and catalogued prior to being dispatched. Our Machine Shop's machinery has the capacity to carry out small and large scale turning, milling, drilling, grinding, broaching, pressing and shaping operations.

Further to this, we are providing on site machining, grinding, drilling & lapping services with our high quality portable tools.

A close-up photograph of a cast metal engine block, showing the cylinder bores and the surrounding structure. The metal has a polished, machined appearance. The image is positioned on the left side of the slide, with a dark green background on the right.

CASTING SERVICES

With the combination of our machining capabilities with our fully equipped machine shop, we can cast the products. So we can do casting machining, finishing and assembling of your orders under one roof.

MECHANICAL SERVICES

We offer a wide range of mechanical solutions to ensure the efficiency and durability of building systems, including:

HVAC Systems: Installation, maintenance, and servicing of heating, ventilation, and air conditioning systems.

Piping Solutions: Design, fabrication, and installation of carbon steel, stainless steel, and PVC piping for industrial and commercial applications.

Pumps & Valves: Supply, installation, and maintenance of industrial pumps and valves for water, oil, and gas projects.

Steel Fabrication: Custom fabrication of mechanical components, platforms, and support structures.

Fire Protection Systems: Installation of fire suppression, fire hydrants, and sprinkler systems.

ELECTRICAL SERVICES

We provide reliable electrical solutions to power up various commercial, industrial, and residential projects:

Electrical Distribution Systems: Installation of switchgear, transformers, and power panels.

Lighting Solutions: Design and installation of energy-efficient lighting for interiors, exteriors, and infrastructure projects.

Control & Automation: Implementation of SCADA, PLC, RTU, and smart control systems.

UPS & Power Backup Solutions: Ensuring uninterrupted power supply for critical systems.

Earthing & Lightning Protection: Installation of grounding and lightning protection systems for enhanced safety.
Fire & Security Systems: Deployment of fire alarms, CCTV, access control, and surveillance systems.

PLUMBING (MEP) SERVICES

We ensure proper water supply, drainage, and sanitation solutions with our specialized plumbing services:

Water Supply & Distribution: Design and installation of potable water systems.

Drainage & Wastewater Solutions: Implementation of efficient sewerage and stormwater drainage networks.

Irrigation Systems: Setup of automated irrigation for landscaping and agricultural needs.

Plumbing Fixtures & Fittings:
Supply and installation of high-quality plumbing fixtures for residential, commercial, and industrial applications.

MEP SUPPLIER

QUALITY PRODUCTS & RELIABLE SOURCING

In addition to our service expertise, Ihsan Al-Arabia is a leading MEP supplier, providing high-quality mechanical, electrical, and plumbing products to meet project demands. Our strong network of manufacturers and suppliers ensures access to premium, cost-effective materials with timely delivery.

MECHANICAL PRODUCTS

IGC CONTRACTING" carries a wide range of engineered mechanical products from our leading Manufacturers in the field of Construction as well as for the materials and spare parts required for the Operation and Maintenance Projects/Services.

Due to increasing demand in the market and with our qualified Engineers and Technicians, "IGC CONTRACTING" is now providing complete services including Fabrication, Supply, Installation, Testing and Commissioning of all types of pumps and related items needed to complete the projects as well as after sales services for all the Mechanical Projects are as follows:

1. Supply and Installation of all types of Pumps Project such as: Lifting Station, Sewage, Sea Water, Dewatering & Well Point, Irrigation, Booster, Transfer Pumps and Reflex Pressure Tanks.
2. Supply and installation of Industrial valves for air, water, Oil & Gas Projects including fabrication of related materials such as Pipes, Fittings and Accessories, Etc.
3. Supply and installation of CS, SS & PVC/UPVC Pipes, fittings and accessories for Factory and Plant projects.
